

ROCKER COVER RACING GUIDELINES 2024

1. This is a fun event.
2. Cars shall be based on an actual rocker cover (valve cover) from a car engine. There shall be no limitation on engine make, model, cylinder configuration, or displacement.
3. Cars must retain at least 75% of the original rocker cover.
4. Cars must not have any form of mechanical propulsion or steering. Gravity is your friend.
5. Cars must weigh no more than 4kg
6. Cars overall length shall be no more than 60cm. NB: the “Staging Lane” is 60cm long.
7. The course shall consist of two divided lanes, approximately 34cm wide. With a track length of approximately 9m.
8. Cars will be run in heats of 2 cars each. The first car to cross the finish line shall be declared the winner. If neither car makes it to the finish line, the car going farthest shall be declared the winner.
9. Winning cars will advance to the next round until all are eliminated – except one champion!
10. Constructors wishing to wear racing clothes, fireproof overalls, helmets, etc, do so at their own risk of being laughed at.
11. Downforce wings, spoilers, air dams, etc are all permitted. They probably won't do any good, but we will all get a good chuckle out of them.
12. Sponsorship logos, racing stickers and car names are all encouraged.

This is a fun event not to be taken too seriously!!
